• Libraries:

1. ADO .NET
2. Windows form
3. Redux-toolkit

• Databases:

1. Microsoft SQL Server

PROFESSIONAL SUMMARY

Complex problem-solver with analytical and driven mindset. Dedicated to achieving demanding development objectives according to tight schedules while producing impeccable code.

EXPERIENCE

June 2023 - Present

- Associate Software Developer
Baritechsol, Karachi
 1. Developed enhancements for GlobalPost, a leading shipment and packaging courier company, using MS SQL Server, .NET, and React.js to enhance software infrastructure and performance.
 2. Worked on microservices architecture to support the scalability and flexibility necessary for handling the extensive operational needs of a major courier network.
 3. Utilized repository pattern to achieve abstraction and streamline shipping operations, ensuring scalable and maintainable service workflows.
 4. Managed version control using GitHub desktop, promoting high standards of code integrity and facilitating collaborative development through comprehensive code review processes.
 5. Worked with SQL for robust database management, enabling efficient and effective data handling and integration across multiple service components.

April 2022 - July 2022

- Dot NET developer (Internship)
Indus Hospital, Karachi
 1. Learnt .NET REST API.
 2. Learnt JQuery.

EDUCATION

- BS(Computer Science) 2018 - 2022

National University of Computer and Emerging Sciences FAST(NUCES),
Karachi

SEMESTER PROJECTS

- **Inventory Management System**

Built a desktop application to manage inventory of a super mart using windows form, C# and SQL server database.

<https://github.com/SyedHassaanAli880/Inventory-Management-System.git>

- **Billing Management System**

Built a desktop application for maintaining warehouse, shopping mall etc. services such as payments, sales invoice, shops etc. It was purely implemented using .NET Framework and C# using WinForms and Microsoft SQL server database.

<https://github.com/SyedHassaanAli880/Bill-Management-System.git>

- **Khareed Lo**

Built an e-commerce website using ASP .NET 5.0 MVC, Entity framework core and Microsoft SQL Server.

<https://github.com/SyedHassaanAli880/KhareedLo.git>

CERTIFICATIONS

- **ASP .NET MVC with .NET CORE**

<https://drive.google.com/file/d/1bNJAfKYywnLpIuDhYaOtmSV4AEQrCtj2/view?usp=sharing>

- **SQL (BASIC) Certificate**

<https://www.hackerrank.com/certificates/680620965892>
